4Learning Geography Essentials: Unit 14 - Investigating ...

4Learning Geography Essentials: Unit 14 - Investigating rivers Activity sheet A - River map A grid of squares makes it easier to find things on a map. Grid references are the numbers that give the position of each square. Look at the map and find the church. The number of the vertical line on the left of that square is 42.

Use the words in the box to fill in the blanks.

Question 20 Explanation: One mile south, one mile east, and one mile north may seem impossible, but that is because most people think two-dimensionally. The earth is a three-dimensional object. If you are standing at the north pole, then all directions are south. The mile east is not actually a straight line but a curve.

Technical Analysis Explained 4th Edition

A river or stream will have a source. This might be a low spot where enough water, draining from the surrounding area, gathers and flows on the surface. It might be where water appears from underground in a spring, or it might be an outflow from a lake - or even from beneath a glacier.

4Learning Geography Essentials: Unit 14 Investigating ...

4Learning Geography Essentials: Unit 14 – Investigating rivers. Activity sheet A – River map. Look at the map and find the church. The number of the vertical line on the left of that square is 42. The number of the horizontal line at the bottom is 19. The grid reference for the church is therefore 4219. 1. Give the grid reference for: the source
