~~The 4P10 engine has a very complex timing system and it is imperative that the replacement procedure is followed. The 4P10 timing system does not have timing gear or chain marks to align. The use of special tools is a must to ensure the engine is timed right. Catastrophic engine failure could result with out the use of the special tools.~~

~~The Mitsubishi 4B1 engine is a range of all-alloy straight-4 piston engines built at Mitsubishi's Japanese "World Engine" powertrain plant in Shiga on the basis of the Global Engine Manufacturing Alliance. Although the basic designs of the various engines are the same, their exact specifications are individually tailored for each partner. The cylinder block and other basic structural parts of the engine were jointly developed by the GEMA companies, but the intake and exhaust manifolds, the cylin~~

certain 2012-2015 FEC72 and FEC92 vehicles equipped with the 4P10 engine lower timing chain bolt. On certain affected vehicles, the lower engine timing chain bolt may have been insufficiently tightened during assembly. Normal operation in this condition may cause an engine oil leak. In the worst case, the engine could become

~~Mitsubishi 4P10 Engine Assy Parts | TPI~~

Its a cutaway engine, back half is missing, so the filter looks in a different place. I have removed my engine cover because it was rubbing on no4 injector loom, in any case it serves no purpose its not an acoustic cover, just a decoration, but I do prefer to see the engine so I can spot any leaks etc before they might become an issue.
