A Contrastive Study of Death Metaphors in English and Chinese

Abstract - This contrastive study is
geared towards investigating the
euphemistic language of death in
Egyptian Arabic and Chinese. The results
indicate that euphemisms are universal
since they exist in every language and
no human communication is without
euphemisms. Both Egyptian and Chinese
native speakers regard the topic of
death as a taboo.

English And Vietnamese

“Death” is an unavoidable part of life, and sometimes a must topic. For its inauspicious implication, “death” itself is usually euphemized with other terms or phrases in a variety of living languages, including Chinese and Vietnamese. A comparative study is conducted on the various ways of expressing “death” in these two languages.
