Asset Protection From Lawsuits in the United States. The United States is often thought to be the most litigious country in the world. It does have the largest number of lawsuits. However, the dubious honor of lawsuits per capita belongs to Germany, with 123.2 lawsuits per 1,000 people. The U.S. only comes in fifth place (74.5/1,000), right behind Austria (95.9/1,000) and before the United ...

4 Essential Asset Protection Strategies for Entrepreneurs ...

What do we mean when we say Asset Protection Planning? To answer that we first need to understand what "assets" we are referring too. Over the course of your life you will (hopefully) amass what we call "assets" (aka stuff worth money). Some of those assets might be growth or income producing assets such stocks or real estate. While others may just be stuff that continually loses value ...

Asset Protection Definition

Asset protection strategy number one is to use limited liability companies. LLC statutes include provisions that keep a creditor from taking the company or the assets inside. The exclusive remedy in most jurisdictions is a charging order. The charging order says that the creditor has the right to distributions paid out of the LLC.
