Bose 802 series III loudspeakers are used in combination with the Panaray system controller or the Bose 1600 or 1800 amplifi ers with the 802 plug- in EQ card for active equalisation of the system. The Panaray controller assures smooth, accurate spectral response across the entire operating range of the 802 series III loudspeaker.

Mailbag: Is The Bose 901 Equalizer Really Necessary ...

Hi all, did a search looking for info on this and cant find anything. My question is about the bose controller. Can the effects of the controller be replicated on a standard eq (i have found some info on this but cant get my head around some of the technical talk) if so could someone post a simple "how to"? Also i was wondering about the other controllers available like the ev and the martin ...

Bose 802 Series II Loudspeaker - walkersound.co.uk

Bose offers audio equipment like headphones, sound speakers, and home entertainment equipment. They also offer home audio equalizers for their speakers. The company was started by Amar Bose in 1964. What EQs are recommended for Bose 901 series? It depends on the generation. For good results, you should only mix and match within compatible ...

PANARAY 802 -III loudspeakers TECHNICAL DATA SHEET

I bought a set of Bose 901 Series II speakers on base back in the '70s, and have had them in storage for the past 20 years. Somewhere along the way the equalizer got lost, but I have an old Kenwood equalizer. Can I use that instead? Is the Bose equalizer really that important? Thanks for writing, Jim!
