Civil Society And The Professions

Professions in Civil Society and the State is at once elegant and startling in its directness and the sheer scope of its implications for future comparative research and theory. Not since Talcott Parsons during the early 1970s has any sociologist (or political scientist) pursued this line of inquiry.

Once you join the Civil Service you'll become part of a profession. Your profession offers networking opportunities, career routes, training and development programmes - and a real sense of belonging. There's also scope to work in other professions. So whatever your passion, to specialise or try something new, there's a path for you.

Professions | Civil Service Careers

A civil engineer is the designer, constructor and maintainer of infrastructure that society needs to move itself around society. Infrastructure is the fundamental facilities and systems serving a country, city, or other area, including the the ser...
