R - dummies

As you can see R deals with the dummies pretty well, you just pass them into the formula as factor variable and R will do the rest for you. By the way there's no need to change the categories from c(2,1) into c(0,1), the results will be the same as you can see in the example above.

How do I make a dummy variable in R? - Stack Overflow

Mastering R has never been easier. Picking up R can be tough, even for seasoned statisticians and data analysts. R For
