## Digger definition and meaning | Collins English Dictionary

Digger is a military slang term for soldiers from Australia and New Zealand. Evidence of its use has been found in those countries as early as the 1850s, but its current usage in a military context did not become prominent until World War I, when Australian and New Zealand troops began using it on the Western Front around 1916–17. Evolving out of its usage during the war, the term has been ...

Digger was originally created by Windmill software in 1983 and released as a copy-protected, bootable 5.25" floppy disk for the IBM PC. As it requires a genuine CGA card, it didn't work on modern PCs. In 1998, I created Digger Remastered, which runs on all PCs with CGA or better and plays just like the original.
