Context and Language - ISFLA  
According to Halliday, text is a sign representation of a socio-cultural event embedded in a context of situation. Context of situation is the semio-socio-cultural environment in which the text unfolds. Text and context are so intimately related that neither concept can be comprehended in the absence of the other.

Language Context and Text by Halliday - AbeBooks  
Michael Halliday is an internationally recognised scholar who, from the late 1950s, has contributed significantly to theories of language and related areas. Best known for developing systemic functional linguistics (SFL), he transformed views about language by making choice a core concept of his theory, where choice in the language system is between meanings rather structures [1].
