Handbook of the Mammals of the World is a book series from the publisher Lynx Edicions. The nine volumes were published from 2009 to 2019. Each mammal family is assessed in a full text introduction with photographs and each species has a text account with a distribution map and illustrations on a plate. This is the second major project by Lynx Edicions since the release of the Handbook of the Birds of the World in 1992. The chief editors are Russell Mittermeier and Don E. Wilson in association w

The Handbook of the Mammals of the World is an essential reference series that covers all the world's mammal species. Combining high production values with outstanding photography and illustrations, each encyclopaedic volume provides authoritative information. The seven volumes published so far have covered most major orders except bats.

Published by Lynx Edicions in association with Conservation International and IUCN. Rats and mice and their relatives in the order Rodentia make up almost half of the species of mammals. Because of this, we polled our readers and the overwhelming positive response was to produce two volumes treating Rodents.
