Head First Design Patterns on Apple Books

Another book I read first is Clean Code, which I would also recommend, but Head First Design Patterns is a nice addition because the detailed code examples really help cement my understanding. The examples are all in Java, which I don't know well at all, but with just knowing the bare minimum Java I was able to understand nearly all of the examples.

Head First Design Patterns - Coding Horror

With Head First Design Patterns, you'll avoid the embarrassment of thinking Decorator is something from the "Trading Spaces" show. Best of all, in a way that won't put you to sleep! We think your time is too important (and too short) to spend it struggling with academic texts. If you've read a...

Head First Design Patterns, 2nd Edition [Book]

Head First Design patterns is probably one of the best OOP books I've ever read. If you are new to design patterns, this book is a great start. Each chapter focuses on a design pattern and contains real-life examples and scenarios to help you understand the concept easier. Do not consider this book as a complete pattern catalog.
