“In the Shadow of the Moon” isn’t effective as sci-fi, action, noir, mystery, or even social commentary, even though it has elements of all of the above. What saves it from complete disaster is Mickle’s technical skill—he washes the film in nice blues and grays with cinematographer David Lanzenberg , although even that feels like it ...

In the Shadow of the Sword - Tom Holland [AUDIOBOOK] - Part 1
Between 1968 and 1972, the world watched in awe as American spacecraft voyaged to the Moon. Twelve astronauts, including First Man Neil Armstrong, walked upon its surface, and they remain the only human beings to have stood on another world. This award-winning documentary retells the story of Apollo through interviews with all the surviving astronauts.
