Integrated Physics & Chemistry - Cathy Duffy

Integrated Physics & Chemistry is one program that I regret our older children did not have the opportunity to use. It would have been perfect for them because it introduces both physics and chemistry in a way that they would not have found intimidating. This entry-level, applied course gives teens a thorough grounding in basic chemistry and ...

IPC - Integrated Physics and Chemistry

Integrated Physics and Chemistry (IPC) is written by internationally respected scientist/author, John Hudson Tiner, who applies the vignette approach, which effectively draws readers into the text and holds attention. The author and editors have deliberately avoided complex mathematical equations

I was particularly interested in reviewing this course since it was written by John Hudson Tiner, author of the "Exploring" series of books that I thought were especially well written. In my opinion, Tiner's writing style proves to be critical in Integrated Physics & Chemistry. He takes two subjects that are often presented as dry collections of information and turns them into historical ...
