Euler's formula, named after Leonhard Euler, is a mathematical formula in complex analysis that establishes the fundamental relationship between the trigonometric functions and the complex exponential function. Euler's formula states that for any real number x : $e^{ix} = \cos x + i \sin x$, where e is the base of the natural logarithm, i is the imaginary unit, and \cos and \sin are the trigonometric functions ...

Phone Compatibility List

Keeping in view the pros and cons, the student needs to decide if it is worth it to drop a year to prepare for entrance. Career counselors should be consulted who can do an in-depth analysis of the students' overall performance and give advice based on it. Parental support is of equal importance as this is a crucial milestone in a student's ...
