Knowing What Students Know: The Science and Design of
Educational Assessment. Pellegrino, James W., Ed.; Chudowsky,
Naomi, Ed.; Glaser, Robert, Ed. This book explains how
expanding knowledge in the scientific fields of human learning
and educational measurement can form the foundations of an
improved approach to assessment.

Knowing What Students Know: The Science and Design of

...

In essence, it's our work as educators to know what our students
know. It's this knowledge that creates a map for us to use to
adjust our curriculum, instruction, and assessment practices to
more closely meet our students' learning needs.

Knowing What Students Know: The Science and Design of Educational Assessment This book looks at research into human learning and educational measurement and explains how these fields can form the basis for new approaches to assessment.

Knowing What Students Know: The Science and Design of ...

K-W-L (Ogle, 1986) is an instructional reading strategy that is used to guide students through a text. Students begin by brainstorming everything they know about a topic. This information is recorded in the K column of a K-W-L chart. Students then generate a list of questions about what they want to know about the topic. These questions are ...

Committee on the Foundations of Assessment, Board on Testing and Assessment, Center for Education, National Research Council, Robert Glaser, National Research Council, James W. Pellegrino, Naomi Chudowsky. Education is a hot topic.

NEA - K-W-L (Know, Want to Know, Learned)

Despite substantial investments in programs aimed at enhancing teacher knowledge of individual students' skills (KISS), we know surprisingly little about how KISS is distributed or how teachers develop KISS, let alone the role that KISS plays in instruction and learning. In this study, I employ nationally-representative data to create KISS ...
