Languages might have complex  
inflectional systems, complex writing  
systems, irregular spelling systems,  
and/or complex phonology. Generally  
the more a language differs from your  
L1 or other languages you know, the  
harder it is to learn. For lesser-studied  
languages it can be hard to find  
language learning materials and  
courses.

One of the main attractions of a modern language degree is the opportunity to spend either a semester or a year abroad in a country where the language of study is widely spoken. This experience aims to increase proficiency in the language of study, while also allowing students to immerse themselves in another culture and meet the challenge of communicating with a broad range of people.

International variations Australia. In  
Australia, the Master of Engineering  
degree is a research degree requiring  
completion of a thesis. Like the Master of  
Philosophy (M.Phil.), it is considered a  
lesser degree than Doctor of Philosophy  
(Ph.D.). It is not to be confused with  
Master of Engineering Science, Master of  
Engineering Studies or Master of  
Professional Engineering which are  
coursework ...
