Lecture Notes 19 Yale University

Lecture 19 - Charlemagne Overview. In this lecture, Professor Freedman discusses the Carolingian dynasty from its origins through its culmination in the figure of Charlemagne. The Carolingians sought to overthrow the much weakened Merovingian dynasty by establishing their political legitimacy on three bases: war leadership, Christian rule, and the legacy of Rome.

Lecture 19 - Waves Overview. Waves are discussed in further detail. Basic properties of the waves such as velocity, energy, intensity, and frequency are discussed through a variety of examples. The second half of the lecture deals specifically with superposition of waves. Constructive and destructive interferences are defined and discussed.

Canby's affiliation with Yale University as a student and later as a faculty member is documented by his correspondence and by lecture notes and related course materials. Canby's sister Kit attended Vassar College and the correspondence files include her letters written while she was a student in the 1890s.
