Raj Chetty is the William A. Ackman Professor of Public Economics at Harvard University. He is also the Director of Opportunity Insights, which uses "big data" to understand how we can give children from disadvantaged backgrounds better chances of succeeding. Chetty's research combines empirical evidence and economic theory to help design more effective government policies.

### **Lectures on Public Economics | Princeton University Press**

Lectures on public economics are given each year by economists at IFS. They cover a wide range of topics within public economics. Each lecture addresses one key issue, showing how economic theory is useful in understanding the issue, discusses reasons that policymakers are interested in this area, and explores new research and empirical evidence that sheds light on each area.

### **Lectures on Public Economics: Updated Edition by Anthony B ...**

This lecture begins with an analysis of how public economic policies differ from each other in democracies and autocracies. We next turn to politics of public economics in democracies and begin with the classical result about non-existence of a universal rule of democratic aggregation of preferences (Arrow's impossibility theorem).
