LESSON Practice B Relating Fractions, Decimals, and Percents

Practice C 8-1 Relating Decimals, Fractions, and Percents LESSON Write the labels from each circle graph as percents. 1. 0.6 % 2.60 1.6 % 0.1 % 1.4 25 % 0.3 % 1.7 2 % 3. 0.06 % 4. 2 1 0 % 0.18 0.18% 1.4 % 0.41 % 1.5 1 0 % 2.7 0.48% 0.41 1.2 2.5 5% 5. Sara correctly answered 48 out of 50 questions on her last math test.What percent is this? 6.

LESSON Practice C Relating Decimals, Fractions, and Percents

b. If you do not meet standard (do not pass), complete practice set #2 for that skill before you can retest. i. It is key to practice doing each skill correctly and showing all work since that is the only way to meet the standard. 4) Extension activities are available in the back of this booklet for students to apply these

Lesson 34 Practice B Worksheets - Kiddy Math

To begin the Intro to New Material portion of the lesson, I plan to have students synthesize what they noticed as they completed and discussed the Think About It problem. I expect that my students will get us to, or close to, a generalization. When we reach this point I will let students know that they have just discovered a rule that will help them to multiply decimals.
