Model:MaK 9 M 25 C Brand:MaK . Ferry Stena Estrid Completes Sea Trials. Stena Line's "next-generation" ferry Stena Estrid has arrived in Holyhead after completing sea trials and a five-week, 10,000 mile journey from China to the Irish Sea where she will begin service early...

MaK M25-9 Marine Diesel Engine

The M 25 C, part of the MaK long-stroke engine generation, is based on the proven design characteristics of the M 20 C, M 32 C and M 43 C engine series. When developing this new engine generation, the objective was to achieve a high benefit level for the customer. In all design and development considerations, therefore, three criteria had the highest priority: reliability, economy and ...

The marine diesel engines division became Caterpillar Motoren GmbH & Co. KG in 1997 and is now a 100% subsidiary of Caterpillar Inc. The engines still carry the MaK logo. One example of the success of this organisation is the use of four engines of the type MaK 9 M 43 C in the cruise ship AIDAdiva.

MaK Marine Diesel Engines

Since its introduction into the market, the MaK long-stroke engine series M 43 has achieved an outstanding position on the marine applications market as an in-line engine in 6, 7, 8 and 9 cylinder versions. More than 650 engines with a total power of more than 6,500 MW have already been sold making the M 43 the market leader in the 5-9 MW power class.

Mak 6M453C start

Developed and designed in response to special requirements of marine applications, the M 20 C is characterized by high reliability and economy. These features help to explain the continued high market demand for the M 20 C. The long-stroke design principle is the backbone of an excellent combustion process with low fuel and lubricating oil consumption, as well as low NOx emission.

Cat | M 43 C | Caterpillar

The acceptance of the M 32 C long-stroke engine series in the marine industry is a success story, whose equal is hard to find in this power class. Since its introduction in 1994, more than 1600 engines have been sold. 80% of them are marine propulsion engines, and 20% are electrical generator sets. The M 32 C series is a genuine heavy fuel engine, and 75% of all engines commissioned burn the ...
