Daewoo 1760 XL skid steer Engine will not crank with ignition switch. Will turn over when jumped at solenoid. Fuse is good, power at switch when in start position, no indicator light plug relay/controller. Traced wires as best as I could using multimeter wires were good. Replaced one drive motor started 4 times then nothing.

We have a Daewoo skid steer loader. The maintenance manual has these numbers on the front of it. 1550 XL/DSL 702 and 2060 XL/DSL 902. While using the skid steer the back wheel/axle came loose. Looks like a nut came off. We found a big round ring like a sleeve bearing or spacer and put it back on but there has to be a nut or something that is gone.
