The Crystal-Image and Bergsonian Memory Bergson distinguished between two types of memory, habit formed memory and pure recollection (habitual memory and pure memory). The former is stored in the brain (matter), the service-house of action, and the latter within consciousness.

Photography, Cinema, Memory - University of Minnesota Press
In Photography, Cinema, Memory, Damian Peter Sutton explores time in both media to present a radical new understanding of the photographic image as always coming into being. Drawing on Gilles Deleuze's concept of the crystal image to move beyond the tropes of immobility, stasis, and death, Sutton's analysis reveals the open-endedness...

Gilles Deleuze's Bergsonian Film Project: Part 2 - Offscreen
Thank you so much for my Beautiful 3D Crystal! The passing of my Yorkie at the age of 16 really was unbearable. I didn't know how I would get through those days. My husband and daughter got the heart shaped 3D crystal and stand. I can honestly say that when I turn the light on I feel her spirit comes alive.

Photography Cinema Memory The Crystal

Cinema and photography are both intimately associated with time—cinema with time in passing, the photograph with the lost moment. In *Photography, Cinema, Memory*, Damian Peter Sutton explores time in both media to present a radical new understanding of the photographic image as always coming into being.

On Writing with Photography — University of Minnesota Press

Cinema and photography are both intimately associated with time—cinema with time in passing, the photograph with the lost moment. PHOTOGRAPHIC MEMORY, PHOTOGRAPHIC TIME 37 even crosses between them. The interval in this case is like a surface or plane, a facet of the crystal, as if Carter views time as a collection of reflections and refractions on it. When the predicament Carter faces is at its sharpest, he stands next to June and looks through a windowpane
