as those found in educational settings, where the focus is on simultaneous [inquiry] into practice (generating knowledge) and action to improve situations (e.g. designing new curricula or learning activities)" (p. 385). Through this self-directed inquiry, the teacher will (1) "ask

Reflective Enquiry into Therapeutic Institutions (Cassel ...

Main argued that, in order for the hospital to be therapeutic, it needs a "culture of enquiry". The individual and the institution might be seduced into ritualised working practices that no longer serve the needs of patients or staff. It is these "lapses from the continual enquiry" that are considered by this collection.

Reflective Practice and Inquiry in Professional ...

This narrative inquiry explores therapeutic relationships in the practice of recreation therapy. Narratives were generated in Recreation Therapy's self-reflective case review process at. Sunnybrook Health Sciences Centre—a process developed to support team engagement in. reflections on their therapeutic relationships.
