Mathematics Assessment for Learning:  
Rich Tasks and Work ...

Rich tasks encourage learners to think creatively, work logically, communicate ideas, synthesise their results, analyse different viewpoints, look for commonalities and evaluate findings. However, what we really need are rich classrooms: communities of enquiry and collaboration, promoting communication and imagination.

## What Is a Mathematically Rich Task?

Schools assign student grades in collaboration with the Rich Task teams that participated in the moderation, which means there are some stakes attached for students. The expectation is that schools will learn to grade samples of Rich Tasks consistent with statewide standards. There are no mandated high-stakes uses of the results for schools.

Rich math tasks provide opportunities for students to work together as they explore a concept or solve a problem. In my webinar, Math Problem Solving: Mindsets Matter, I give examples of rich math tasks and share several strategies for using them with students.

---

Scaffolding Numeracy in the Middle Years: Authentic Tasks

A “balanced diet” of Novice, Apprentice and Expert tasks is needed to properly assess the Mathematical Practices. Each task includes a scoring rubric, a set of pre-scored sample student work, and the same set of work without the scores. Scoring practice for this type of task can be an effective Professional Development activity.
