~~The Shadow of the Bear in the North Carolina Mountains~~
"Time in the Shadows is a stunning blend of politically information analysis and vast empirical detail about U.S., Israeli, British, and French policies of war and occupation. Khalili deftly compares and contrasts a wide variety of confinement strategies—torture, detention without trial, kidnapping, civilian concentrations—and related ...

~~William Basinski—A Shadow in Time~~

For centuries, people have used sundials to tell time based on sunlight's changing directions and its effects on shadows. At different times of the day, your shadow gets longer and shorter, or may disappear. You can tell the time based on your shadow's current length.

completely enthralled until the very last line.

~~One More Time Highland (Highland 1992)~~

The bear shadow appears for about three weeks during the fall from mid-October into early November, beginning at about 5:30 p.m. each day. It reappears in the winter, from mid February into early March. However, when the fall foliage creates a colorful canvas is by far the better time for viewing.
