Smart Home Automation with Linux by Steven Goodwin

Using Linux smart home technology, you can turn your lights on and off at will, play music when you want, and even run your own weather station. Of course, to implement these basic and more adventurous smart home projects, you need the hardware that makes the automation possible.

11 Excellent Open Source Solutions for Home Automation ...

The world of home automation is a changing. I spent a good deal of my adult life in the home automation field. I have seen it change from a few controlled light in the home theater to controlling most everything in the home. Most of the stuff I dealt with was proprietary software, such as Elan, Crestron, Lutron Radio Ra2, and RTI Remote.
