We are a globally operating technology group, optical technologies are the very basis of our business with the majority of our products and services being provided to the photonics market. Our key target markets primarily include the semiconductor equipment industry, the medical technology, automotive and mechanical engineering, traffic, aviation as well as the security and defense technology ...

optoelectronics & photonics solutions A photonic integrated circuit (PIC), also known as an integrated optical circuit, is similar to an electronic integrated circuit. However, instead of using only electrical signals to transmit information, these optoelectronic devices use both electrical and optical (light) signals.
