

## Special Education

### Special Education

Special education (also known as special-needs education, aided education, exceptional education, special ed., SEN or SPED) is the practice of educating students in a way that addresses their individual differences and special needs. Ideally, this process involves the individually planned and systematically monitored arrangement of teaching procedures, adapted equipment and materials, and ...

### Special education - Wikipedia

There are many students who have special learning needs and these are addressed through special education (SPED). The range of SPED supports varies based on need and local laws. Each country, state, or educational jurisdiction has different policies, rules, regulations, and legislation that govern what special education means and looks

## **What is Special Education? - ThoughtCo**

Special education for people with disabilities became universal in developed countries by the late 20th century. Concurrent with this development was the identification of two concepts of individual differences: (1) "interindividual differences," which compares one child with another, and (2) "intraindividual differences," which compares the child's abilities in one area with the ...
