Environmental Health

Flashcards | Quizlet

The purpose of this monograph is 2-fold: 1) to provide descriptive guidance for JECFA and JMPR to ensure the continuation of transparent and sound expert evaluations of scientific data for risk

assessments of
chemicals in food; and
2) to be informative for
users of the outputs
from JECFA and JMPR,
such as risk managers
and other risk
assessment bodies in
Member countries and
authorities.
